

CLAIMS

What is desired to be secured by Letters Patent is:

1. A reconfigurable computer monitor comprising:
 - a) a main unit which includes
 - (1) a monitor screen,
 - (2) a floppy disc drive,
 - (3) a DVD disc drive, and
 - (4) an electrical connection;
 - b) a stand unit which includes
 - (1) a base,
 - (2) a neck which is swivably mounted on the base of said stand unit,
 - (3) a clamp unit on the neck,
 - (4) electrical connections that are sized to electrically connect to the electrical connection on said main unit, and
 - (5) a connection cord which connects said main unit to a CPU when said main unit is used with the CPU;
 - c) a computer unit which includes
 - (1) a keyboard,
 - (2) a battery unit,
 - (3) a video unit,

- (4) a hardrive unit,
 - (5) a sound unit,
 - (6) a motherboard,
 - (7) a mouse unit, and
 - (8) a connection unit; and
- d) a hinge unit which hingeably connects said main unit to said computer unit when said main unit is associated with said computer unit.
